BLOCK A

8:30 am to 9:30 am

WORKSHOP 1

Management of Corporate Documentation: Effective Strategies to Defend Against and Manage Disputes

Moderator: **Martin F. Sheehan**, Partner,
Fasken Martineau

Panelists: **Daniel Marion**, Vice-President,
Thales Avionique Inc.
Éric Simard, Partner,
Fasken Martineau
Raphaël N. Lescop, Partner,
Fasken Martineau

Considering the billions of e mails exchanged globally that can be deleted with the click of a button, corporate document retention and the consequences of their destruction in the context of a potential or actual litigation is certainly a hot topic. Three items related to this issue will be discussed at the conference:

- document retention obligations of businesses
- development of a document retention and destruction policy
- possible sanctions to which businesses expose themselves in the context of a litigation should these obligations be breached.

WORKSHOP 2

Sale Agreements in Times of Crisis: Rethinking Agreement Terms

Moderator: **Denis Chaurette**, Partner,
Fasken Martineau

Panelist : **Michel Boislard**, Partner,
Fasken Martineau
Claude Girard, Partner,
Fasken Martineau

This conference will address the main terms of a sale agreement that both buyers and sellers should reassess in light of the economic crisis:

- financial clauses
- representations and warranties and the term thereof
- indemnity clauses
- closing and financing terms
- notions of materiality and best offers
- termination clauses.

WORKSHOP 3

New Business Opportunities in Energy and Environmental Technologies

Lecturers: **André Turmel**, Partner,
Fasken Martineau
Benoit Paré, President and CEO,
Fabgroups

The political context and the evolution of green energy and climate change regulations have now become the basis for many corporate projects. This is an industry that is clearly growing. Come learn about the obstacles that can be expected and avoided in a regulatory environment subject to rapid change.
